Thanks Mike. Still working to tidy up the PRL for some of the positions, including hazard evaluation teams and related. Once that is done, and positions created in the PRL, that will be the place to "claim" those positions. More to come, would think that we will be sending an email out to the various regional POCs with additional guidance in the next day or two.

Hi Dave/Mikeal –

Per the instructions below requesting that a POC be designated for CMAD please use me as the POC. I figured out how to access the Hurricane Harvey PRL system and will comply with that format.

During the RM call today there seemed to be agreement that Region 7,8,9 &10 will primarily support R-6. How would you like CMAD to assist in filling staffing resources? Note that we really only have a couple of folks (e.g. 3 former OSCs ( Cruz, Jakabhazy and me) and 3-4 other field ready 40 hr trained individuals).

We have compiled a staffing availability and training status matrices which could be helpful if you have difficulty for long tange staffing.

Let me know if you need us and we will do our best to support. Be safe and continue to do good work.

MIKE

Mike,

Here's the link: <https://webeoc.epa.gov/eoc7/default.aspx>

For CMAD Staffing of Hurricane Harvey, please e-mail Dave Williams and Mikeal Adams with a Point of Contact for supplying CMAD personnel in WebEOC. Region 6 has requested that each Region supply a Primary POC and a backup POC and the expectation is that those individuals would be Supplying resources in WebEOC and participating in the coordination calls for staffing. This way it will limit the number of people in WebEOC and provide a coordinated effort for supplying resources.

Hi –

Can you please send me the link to Web EOC 7.5 so that I can access the Personnel Resources Log (PRL) to support HARVEY and/or IRMA

Thanks,

Mike
